I'm a result-oriented programmer interested in a role of a Software Engineer. I am a fast learner with sharp analytical and problem-solving skills. Looking for opportunities to apply my skills and grow. I am a highly motivated team player with a passion for new learning opportunities.

EXPERIENCE

PTCL, Islamabad – *SOC Intern*

JULY 2021 – SEP 2021
- Learned to work in a Security Operation Center.
- Used tools like EDR and SIEM for Security Monitoring and Threat Mitigation.

Chadar Foundation, NUST – *Volunteer*

SEP 2020 - OCT 2020
- Co-Managed the Sahara project in Bahawalpur.
- Collected winter wearables and distributed to unresourceful.

EDUCATION

National University of Science and Technology – *BSCS*

SEP 2018 - JUNE 2022   CGPA: 2.67

PROJECTS

HelpEx – *Flutter and Firebase*

HelpEx is a services-based platform acting as a link between Experts and Help Seekers, connecting skilled people with their right clientele in a hassle free and convenient space.

Web Spider – *C++, Linux, and CURL*

Implemented a multi-threaded web crawler in C using CURL APIs to be able to crawl through the entire domain across all the pages.

Crops Assist – *Streamlit, Python*

Coursera Guided project to build an interactive web application with Streamlit and Python. Train Logistic Regression, Random Forest, and Support Vector Classifiers using scikit-learn.
